How our memory works

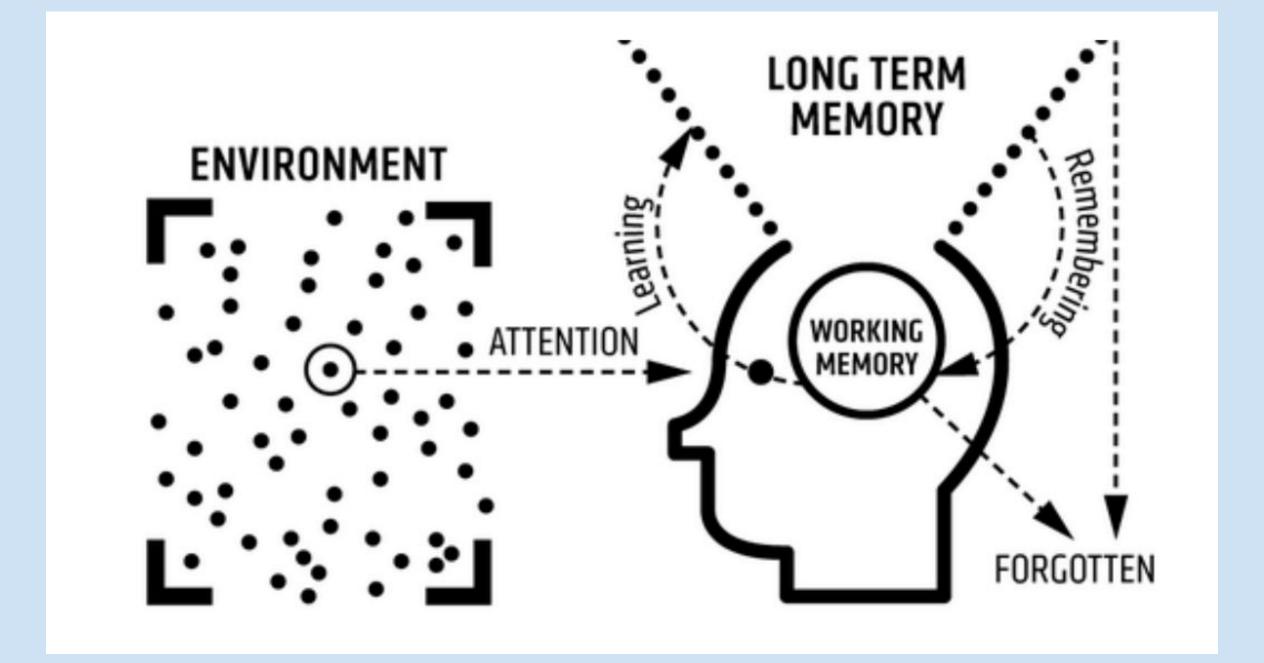

Year 11 Families: Supporting with exam revision

Lucy James, Deputy Headteacher

To set no limits on what we can achieve

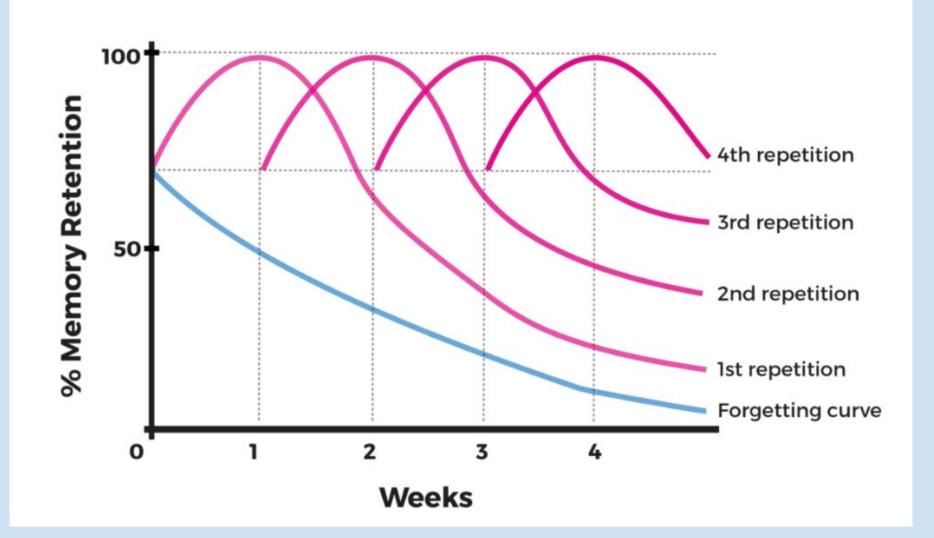

Curve of Forgetting

For newly learned information

Science shows that repetition and revision of information works best when ...

... you fully understand the information and can explain and describe it

... you can give examples

... you switch between topics

... you space your revision out over time

Short term memory test

Number of letters	Correct letters
2	UM
4	TZLD
6	KXCEJO

Effective flashcards will have:

- A small amount of information on each card
- Use a prompt such as a question, key term, date or quote on one side and the answer on the other side

Self Quizzing

Look – read and reread the section a few times to make sure that you understand it. You could also read it aloud.

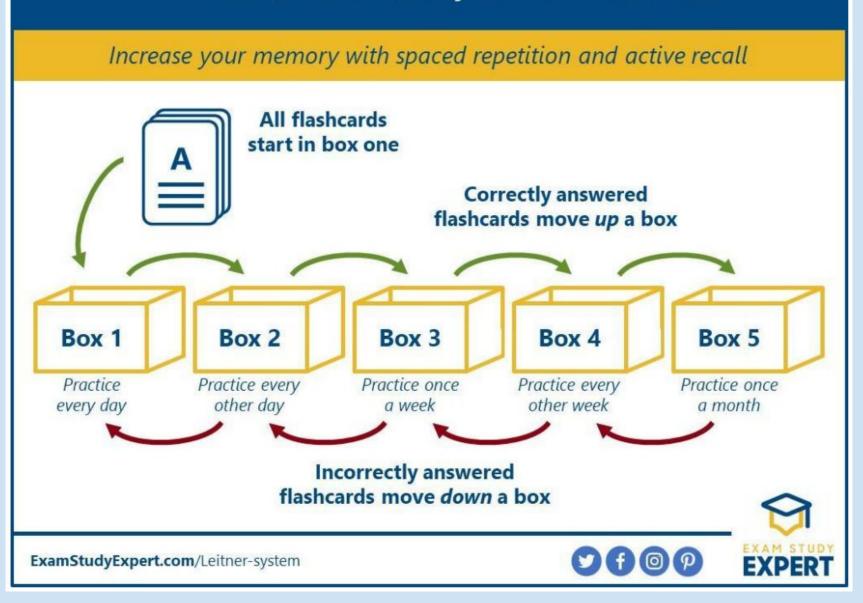

Cover – cover up this part of the knowledge organiser

Write - write (from memory!) everything you can remember

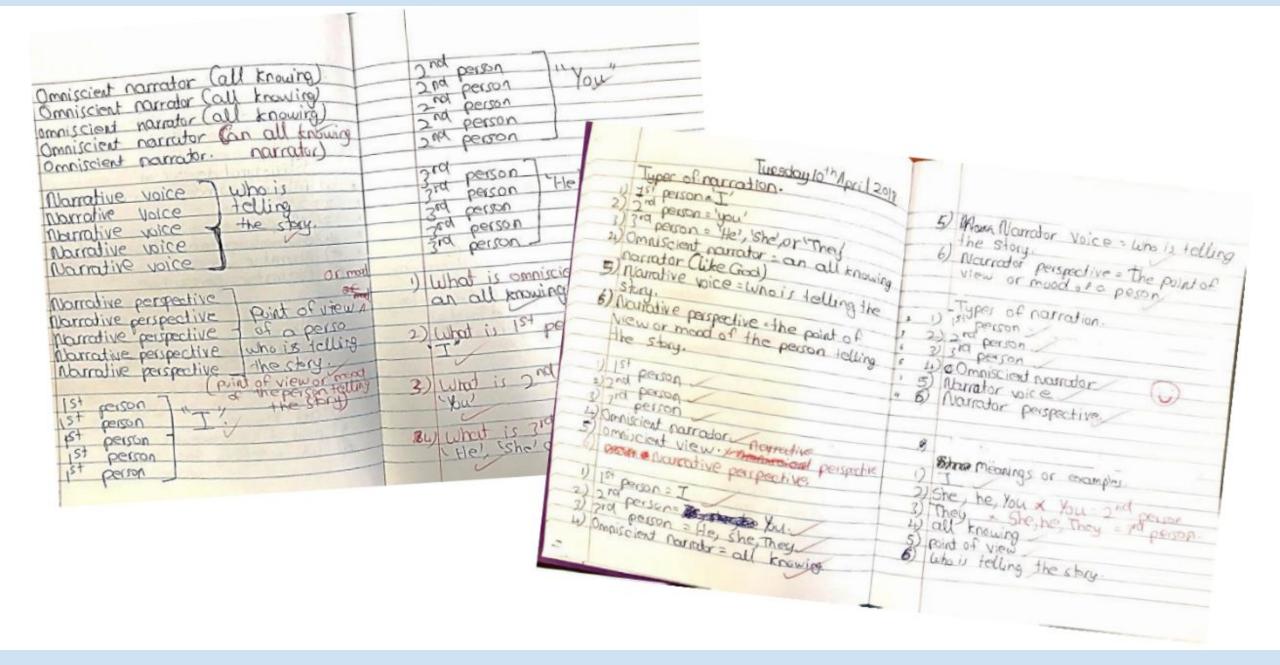

Check - check what you have written using the knowledge organiser

Correct - correct any mistakes, spelling errors or bits missing (using a different coloured pen)

Muhammad Ali, arguably the greatest boxer in the history of the sport. He was born in 1942 in Louisville, Kentucky in the US. He was named after his father, Cassius Clay Sr, who was named after the 19th century abolitionist politician Cassius Clay. He changed his name to Muhammad Ali in 1964. He became a boxers at the age of 12. As an amateur boxer he won many titles culminating in the Light Heavyweight gold medal in the 1960 Olympics in Rome. When Ali returned home he was so proud he wore his medal wherever he went. After a week he went to a café to order a drink. The waiter said, "I'm sorry we don't serve coloured people". Ali was so cross by this he threw his medal into a river. He turned professional at the age of 18. Ali's record was 100 wins, 5 losses; an impressive record.

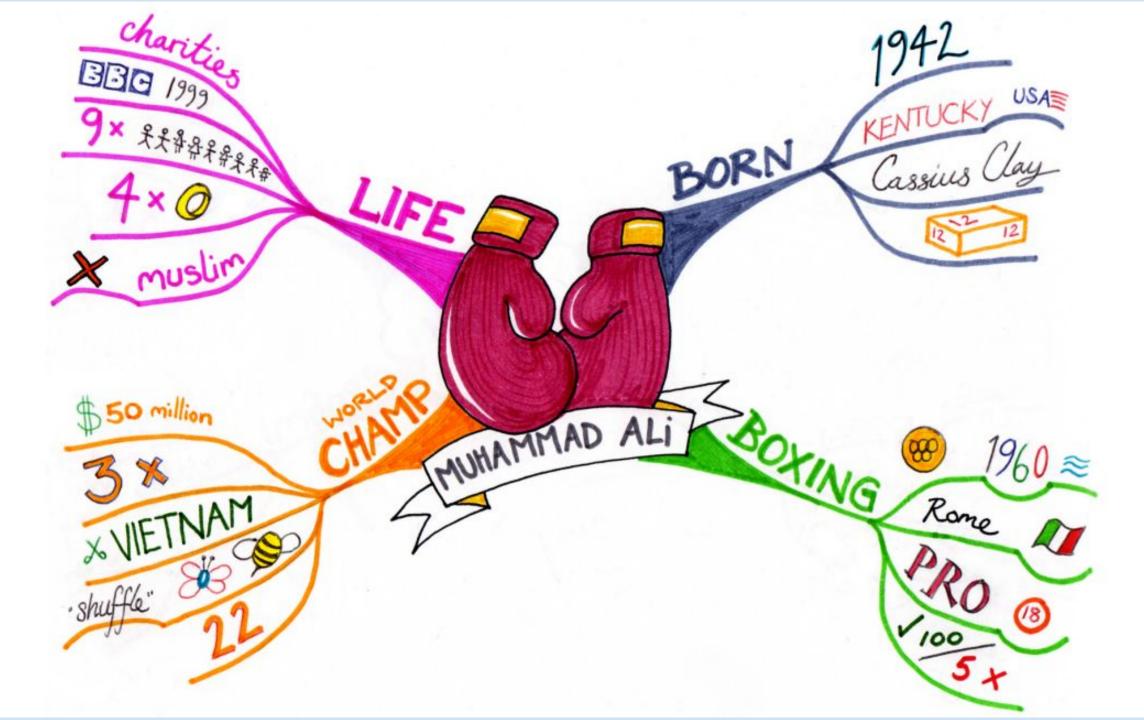

Ali became World Champion at the age of 22. Ali was famous for his unorthodox fighting style. Ali brought strategy and tactics into the boxing ring. With his fast moving, he was adept at dodging punches and with his fancy footwork which was knows as the "Ali Shuffle". He also used mind gamed and often out psyched his opponents before a match. He once famously said he would "float like a butterfly and sting like a bee".

In 1967, Ali refused on religious grounds to be drafted into the army to fight in the Vietnamese war. He was stripped of his title and banned from boxing. He went to the courts and was successful in overturn this judgement. Ali is the only boxer to win the title on three separate occasions. Ali retired from boxing in 1981 at the age of 39. Throughout his career he earned \$50million. Ali converted to Islam when he was 22 and joined the Nation of Islam inspired by Malcolm X. Ali was married 4 times and had nine children in total. Ali was awarded the Greatest Sportsman of the Century in 1999.

Revision timetables

Students will not need to spend an equal amount of time on all subjects.

They need to think about which subjects and topics they need to prioritise.

Revision timetables

- Think about the **time** they will be revising
- What is realistic for them to do each day?
- What other activities or plans do they have?
- Know when they will revise and then stick to it!
- The plan won't be the same for every week make a different plan for each week running up to exams
- Plan the topics to revise not just the subjects

Revision timetables
