Pupil Premium: Ingredients

At some point during your child's time at Churchill Academy they will attend Food & Nutrition lessons. We understand organising ingredients can be difficult. If you are concerned about providing ingredients for these lessons, please read this leaflet for details of the support available.

Support available

We will email home at the start of year 7 to ask if you would like us to provide ingredients. Those that accept will have ingredients provided until they take their options in year 10.

If your child chooses Food & Nutrition as an option in years 10 & 11 the ingredients are more costly. You can choose to use your educational & enrichment funding and ParentPay to cover these costs.

For more details of our educational and enrichment vouchers please see our [guidance leaflet](#)

Additional Equipment Needed

Your child will still need to bring the appropriate boxes to take home the food they have made. It is your child's responsibility to remember to take home what they have cooked on the day it has been made.

Request

We kindly ask parents to only access this provision if it is really needed. Providing ingredients is a costly and time consuming task and may not be the most effective use of the funding available.

Frequently Asked Questions

What if I want to join part way through the year?

Please email pupilpremium@churchill-academy.org to request this

Years 10 and 11 can join part way through the year and will be charged a proportion of the cost.

If, for example, my child is in year 10 and ingredients cost £144 for the year, how do I pay the extra cost?

You can use your child's educational and enrichment funding to pay the first £100, the extra £44 will be put on ParentPay.

Please remember if you do not request this support, ingredients will need to be provided from home.
