Examination Results

2016 - 2017

2017 has been a year of great change in the examinations landscape. The first set of Year 11 students have results in the new, more challenging, GCSEs in Maths and English, whilst our Year 13 have completed two-year linear A-level courses in a number of subjects for the first time. As ever, Churchill's staff and students have demonstrated great resilience and adaptability, and our careful planning has meant that we have been well-prepared for the changes. All at Churchill are rightly proud of these results, but we are never complacent and we are using this year's experiences to ensure that our future cohorts have no limits set on what they can achieve.

GCSE Results

I'm very proud of the students' achievements at GCSE, which are the result of all the work they've put in throughout their time at Churchill. They have thrived on the increased challenge of the new-style GCSEs, and there have been strong performances in practical and creative as well as academic subjects. A lot of credit is also due to the excellent staff at the Academy, who have given their all to help our students achieve and make progress, and to the families who support our young people so well. The determination shown by all concerned bodes well for the future as the majority of our students go on to continue their studies in our sixth form.

A-level results

Our students should feel immensely proud of their results at A-level. All the hard work and commitment towards their study through their time at Churchill has been justly rewarded. They have overcome the challenges they have faced and shown real grit and determination to succeed, whilst enjoying themselves along the way. I wish them every success as they take their next steps beyond the Academy.
